

Time Flies

It has been almost 4 years since Home Video Studio of Mount Dora has opened. Time has flown by – for you maybe... But since we spend so much of our days looking at your past, time is a relative thing for us.

I thought I'd post the video we recorded during our grand opening back in 2014. We love doing what we do. And we hope you like the fact that we are here.

Give us a call or send us an email. We'd love to hear from you and find out how we can help you preserve your family memories.

Michael Ondrasik and Home Video Studio specialize in preserving family memories. For information, call 352-735-8550 or visit <http://www.homevideostudio.com/mtd>
